

## What is Domestic Violence?

Domestic Violence is a pattern of physical, emotional, verbal, financial and/or sexual abuse to gain power and control within a relationship. A relationship can involve a partner, family member or caretaker.

### Does Your Partner...

- Get jealous easily?
- Control every aspect of your life?
- Cut you off from friends and family?
- Blame others for their problems?
- Constantly criticize you?
- Threaten to hurt you, your loved ones, or pets?
- Physically, emotionally or verbally abuse you?

## What is Sexual Assault?

Sexual assault is any unwanted sexual contact that includes rape, attempted rape, intentional sexual touching, incest or molestation. It is committed without consent and often through the use of force, intimidation or coercion. Assaultants can be strangers, spouses, acquaintances, friends, family members or anyone else. Sexual assault is not about sexual desire, it is about power and control.

### You may experience...

Physical reactions: aches and pains, irritation, illness, stomach pains

Emotional reactions: shock and disbelief, fear, anger, powerlessness, and self blame

Mental reactions: difficulty making decisions, flashbacks, confusion

If this happens to you or a friend.....

Remember it is **NOT** your fault.

**You Are Not Alone!**
